Welcome to Sixth Form at Frome College

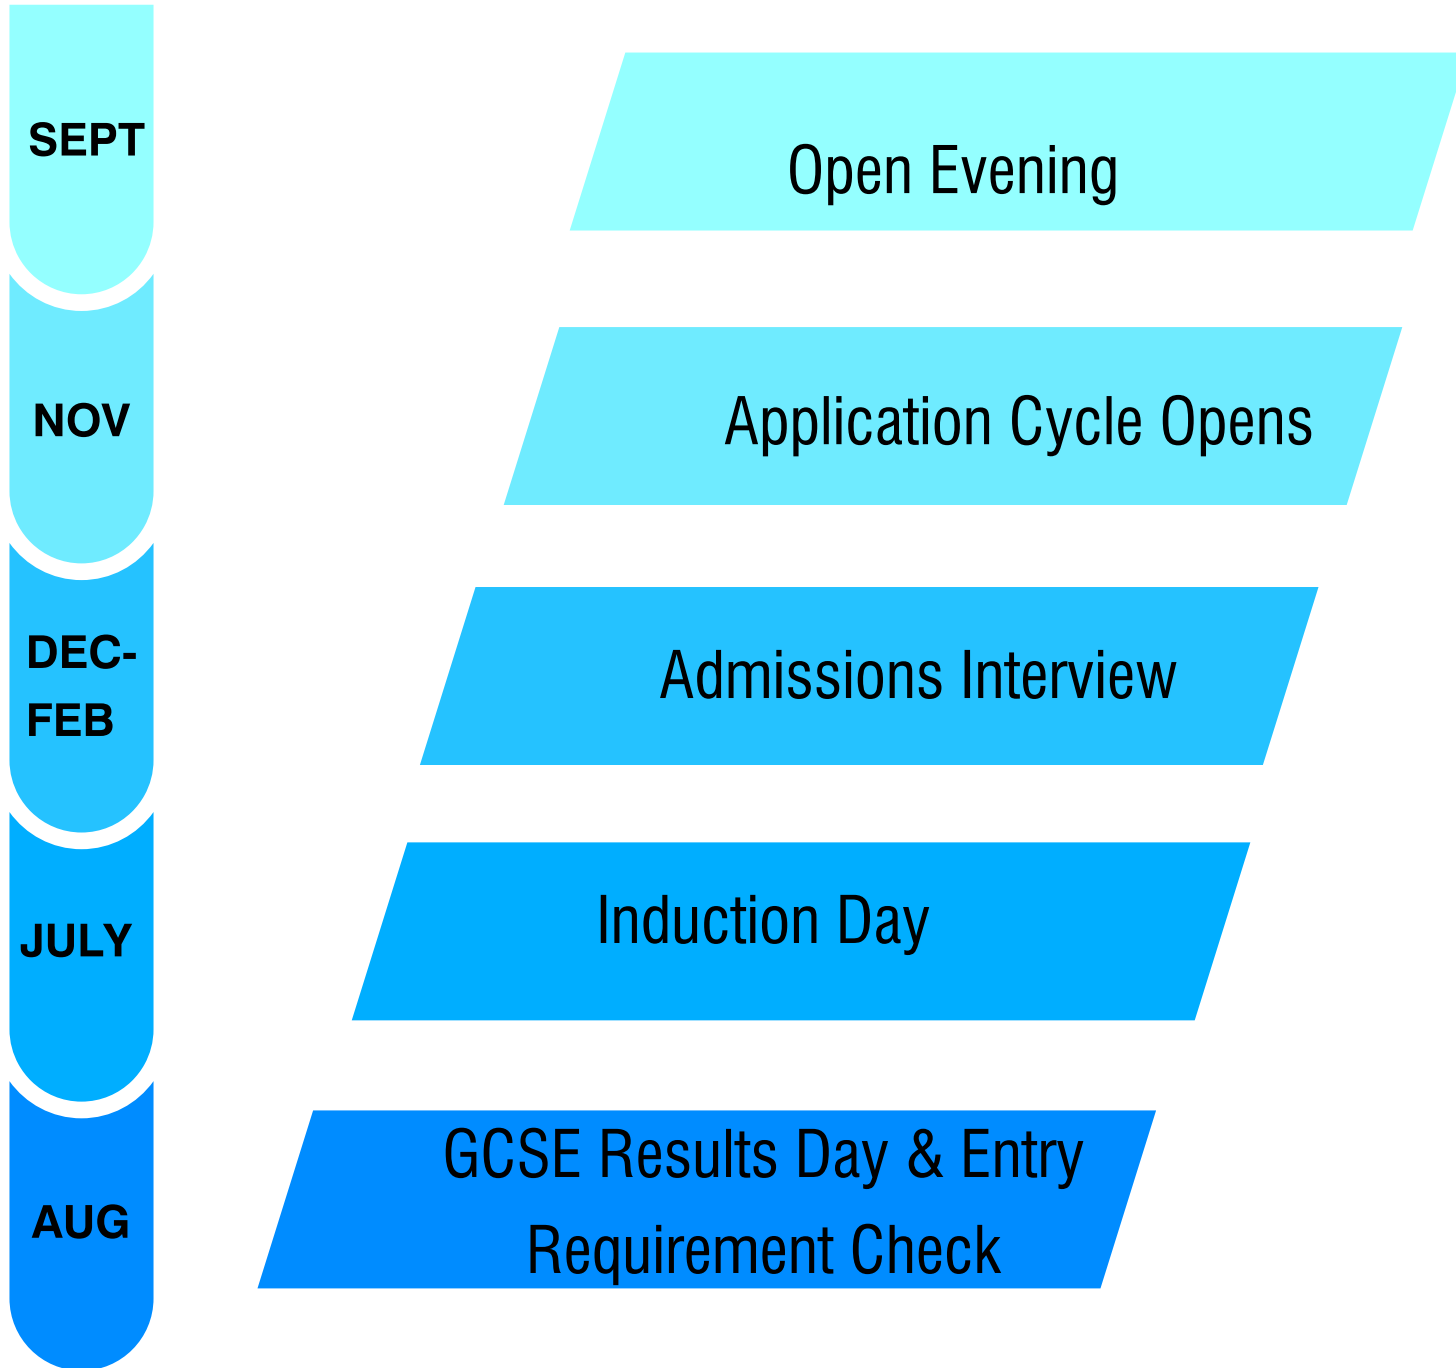

Mr Andrew Davies
Head of Sixth Form

This is an exciting time to be joining our thriving Sixth Form at Frome College as we look to build upon results which have strengthened year on year. We have a proven track record of success that continues to improve; one of the broadest curriculum offers in the area; and a total commitment to student-focused support and challenge. Many of our students progress to university and we have an excellent success rate in ensuring students achieve their first choice for higher education, including Oxbridge and Russell Group universities. Equally, large numbers of students are successful in securing highly competitive apprenticeships.

Our student body is extremely diverse, with students able to pursue a curriculum that is tailored to meet their needs. Above all, we seek to help our Sixth Formers develop into well-rounded and responsible young adults. To help prepare students for life in the wider world we offer a bespoke programme of personal development. Students are also supported in seeking career specific work experience and volunteering opportunities throughout the year. Finally, our thriving student union offers a myriad of opportunities for aspiring leaders and gives students a real say in their Sixth Form experience.

Application Timeline

Entry Requirements

The entry requirement for Level 3 Courses is five GCSE passes grade 9-4. Many subjects, however, require GCSE passes at a higher grade.

A Levels

A Levels are Level 3 courses and are normally taken as an academic route into higher education.

Typically, a student with the required GCSE qualifications will choose three full two-year A Levels.

BTEC Level 3

All our BTEC National and OCR technical qualifications are worth the equivalent of one A Level, with the exception of Double Sport which is worth two.

GCSE resits

We offer GCSE resits in English and mathematics for those students who did not achieve a grade 4 or above in Year 11.

Contributions to courses

Where possible, we seek to minimise the costs students incur during their Sixth Form study. It is necessary for some additional materials to be purchased, particularly for some practical courses e.g. printer credits.

For low-income families we have limited funds available through the Government's 16-19 Bursary Fund. Financial support is allocated according to need, within the Government's guidelines. Bursary application forms are available on our website or from Sixth Form Reception.

A typical Sixth Form curriculum

Students choose three full A Levels (or equivalent) qualification. This is the expectation for most students but is discussed one-to-one with students during the interview process.

We recommend that students who choose A Levels with a significant mathematical component, but do not choose A Level Maths, take Core Maths. Student will also have a fortnightly personal development session and a weekly tutor period

Curriculum Pathways

GCSEs	Suggested programmes of study	Possible destinations
Mostly 7-9	Three A Level subjects, including 1 or 2 facilitating subjects (see below). Students will be encouraged to take the Extended Project Qualification (EPQ) when they go into Year 13.	<ul style="list-style-type: none"> • Russell Group Universities (including Oxbridge) • Higher Level Apprenticeships • Employment
6 or 7	Three A Level subjects. EPQ is recommended for students when they going to Year 13.	<ul style="list-style-type: none"> • Russell Group* Universities (including Oxbridge) • Higher Level Apprenticeships • Employment
5 or 4	Three A Level subjects/BTEC Level 3 subjects.	<ul style="list-style-type: none"> • Universities (Undergraduate degree) • Universities (foundation degree) • Higher Level Apprenticeships • Traineeship • Employment
4 or 3	Three BTEC Level 3 subjects or A Level subjects with standard entry requirements. If the A Level entry requirements are not met, students can apply for the World of Work course (work experience and employability skills qualification). Alternatively, some students will apply for an apprenticeship, traineeship, or progress directly into employment	<ul style="list-style-type: none"> • Universities (Undergraduate degree) • Universities (foundation degree) • Higher Level Apprenticeships • Traineeship • Employment
2 to 1	World of Work – work experience and employability skills qualification. Opportunity to resit GCSE English and maths.	<ul style="list-style-type: none"> • Level 3 Courses (at Frome Futures) • Apprenticeships • Traineeships • Employment

* for more information visit www.russellgroup.ac.uk

Facilitating subjects

These are the A Level subjects highlighted by the Russell Group of universities as those that provide the most options when making your application. The subjects include Maths, Further Maths, English Literature, Chemistry, Physics, Biology, Geography, History and languages (both modern and classical). “Our consistent advice is that taking two facilitating subjects will keep a wide range of degree courses and career options open to you” (advice from the Russell Group). More information on applying to the Russell Group can be seen in their publication ‘Informed Choices’.

GCSE Resits

It is compulsory to retake Maths and English if you do not achieve a grade 4 or above at GCSE.

UCAS Tariff Points

UCAS Points (also known as the UCAS Tariff) are a way of measuring the relative value of all post-16 qualifications in the UK. Points are awarded according to the UCAS Tariff, which assigns a numerical score to the possible grades that can be achieved in each type of qualification. As you would expect, the higher the grade you achieve, the higher the number of points.

Why are UCAS Points important?

Some universities and courses will make offers based on the total number of points that you earn. According to UCAS, two thirds of university courses don't use the Tariff to advertise course requirements, but for those do, it allows greater flexibility over the grade combination needed to meet the requirements.

For example, while a grade-based offer (e.g. ABB) means a student must achieve a certain combination of grades, an offer based on UCAS Points (e.g. 120) allows a student to use any combination of grades to meet the threshold.

<u>Qualification and Grade</u>	<u>Tariff Points</u>	<u>Qualification and Grade</u>	<u>Tariff Points</u>
A level Grade A*	56	BTEC Nationals L3 Distinction*	56
A Level Grade A	48	BTEC Nationals L3 Distinction	48
A Level Grade B	40	BTEC Nationals L3 Merit	32
A Level Grade C	32	BTEC Nationals L3 Pass	16
A Level Grade D	24		
A Level Grade E	16		

Next Steps at Frome College

At Frome College we understand that job markets are evolving, and we want to help prepare students for an ever-changing future by creating their own career path. Opportunities when leaving the Sixth Form are also changing; with an increase in the range of apprenticeships available, as well as planned gap year experiences and studying at university abroad.

We encourage all students to consider a wide range of options. We organise many trips; to apprenticeship conferences, the Higher Education Convention where students can meet most UK universities and many employers, the Oxbridge Convention; as well as inviting in many guest speakers to address students on a wide range of future options, careers paths and degree courses.

We run the Access to Bristol, Pathways to Health Sciences and Pathways to Law Schemes, which involve 8 afternoons at Bristol University studying a degree subject of interest, which as well as enhancing students' university applications, facilitating entering Bristol University with a waiver of the first year's tuition fees, can also help students ascertain what they would like to study longer term. We also offer STEM Nuffield Summer Camp, Rotary Youth Leadership and the On Track to Bath Scheme.

As part of our commitment to developing the whole student - all Year 12 students are required to complete 5 days of work experience which must be comprised of at least 3 things; this can be work experience placements (virtual or in person), university taster sessions and careers research. This should be tailored to meet their career aspirations and help them decide their route after Year 13. We encourage students to participate in volunteering to enhance their university personal statement or CV. Throughout the Sixth Form all students take part in a number of activities to develop their career planning and skills such as two Careers Talk events each year; up to 20 employers are invited in per event - students elect to attend the session which most closely matches their interests, or to gain insight into a new career.

In Year 13, Sixth Formers planning for university have extensive support in the writing of a strong personal statement. We have an exceptional track record of ensuring all applying students succeed in university entry. All students attend sessions to improve their CV and Interview Skills. Students planning to enter the workplace after Sixth Form are invited to 1-2-1 meetings to discuss their future plans, further strengthen their CV, can receive a mock interview and gain support with job applications.

Student Leadership

President - Coral Huxley

Vice President - Solace Deneka

Part of the ethos of the College is to develop leadership opportunities for young people. We have an active and thriving Student Union that aims to empower student led initiatives across the College.

The Student Union executive is elected annually from those in their last year at the College. The President/Vice President stand on a joint ticket and campaign throughout the month of June to win support for their vision of the Sixth Form.

The executive team are responsible for recruiting students into a wider range of roles including Charity, Eco and Arts Officers. Whatever your interests, experiences or ambitions are, there is role for you in the Student Union.

Applied Diploma in Criminology

Level 3 Applied Diploma (equivalent to one A Level)

An understanding of criminology is relevant to many job roles within the criminal justice sector, social and probation work and sociology and psychology. This new qualification will bring together elements of psychology, law and sociology to help students appreciate the role.

It is assessed by a mixture of coursework and formal exams.

Year 12 Content

Unit 1: Changing Awareness of Crime Mandatory

This unit will give you the opportunity to understand the complexity of criminality, different types of crime. Your assessment for this unit will be in the form of a piece of coursework that involves planning a campaign for change in relation to crime; for example, to raise awareness, change attitudes or change reporting behaviour.

This unit will give you an understanding of what criminal behaviour is and why people commit crime. This unit will be assessed by a 90-minute formal exam at the end of Year 12.

Year 13 Content

Unit: 3 Crime Scene to Courtroom

This unit will provide an understanding of the criminal justice system from the moment a crime has been identified to the verdict. Your assessment for this unit will be in the form of a piece of coursework.

Unit 4: Crime and Punishment Mandatory

In this unit you will learn about the criminal justice system and how it operates to achieve social control, organisations which are part of our system of social control and their effectiveness in achieving their objectives. This unit will be assessed by a 90-minute formal exam at the end of Year 13.

Need more information?

<https://tinyurl.com/eduqas-criminology>

What do I need?

Five GCSEs 9-4 (including grades 9-4 in English & Maths).

What career could I have?

- Police Officer/Detective
- Prison/Probation officer
- Social Worker
- Youth Worker
- Border Force Officer
- Data Scientist
- Forensic Computer Analyst
- Local Government Officer
- Social Researcher
- Solicitor/Paralegal

Who can I contact for more information?

Applied Psychology

Level 3 BTEC National Extended Certificate (equivalent to one A Level)

Psychology is the scientific study of minds and behaviour. As such, it is a part of our everyday lives. An understanding of human behaviour is fundamental to many jobs in society and the study of psychology at degree level remains a very popular choice.

Year 12 Content

Unit 1: Psychological approaches and applications You will explore four key approaches in psychology – social, cognitive, learning, and biological – studying key concepts such as memory, cognitive priming, conformity, stereotypes, and social categorisation.

This unit will be examined at the end of Year 12 through a 1 hour 30-minute formal exam.

Unit 2: Conducting Psychological Research Human Behaviour is unpredictable and diverse, making it particularly difficult to measure. It is, therefore, crucial that the research methods used to investigate key questions are appropriate and thorough.

This unit will help you to develop knowledge, understanding and skills in the scientific process and in psychological research methods. You will do this through carrying out your own psychological research project.

This unit will be assessed via a research project assessment.

Year 13 Content

Unit 3: Health Psychology You will explore psychological approaches, theories and studies related to lifestyle choices, unhealthy behaviours, and behavioural change, linking them to their specific contexts. You will also study theories and treatments of stress, behavioural and biological addiction.

This unit is assessed via a 2-hour formal exam.

Unit 6: Introduction to Psychopathology The study of psychopathology explores the nature and causes of mental disorders that have their roots in social, genetic or psychological explanations. This unit explores the essential knowledge and skills used by professionals who support those experiencing mental health problems. You will develop knowledge of psychopathology, types and characteristics of mental disorders and approaches to treatment, and the role of professionals in supporting and promoting mental health.

This unit is assessed via an assignment.

Need more information? <https://tinyurl.com/eduqas-criminology>

What do I need?

Five GCSEs 9-4 (including grades 9-5 in English).

What career could I have?

- Counsellor (marriage/ family/ addiction/mental health)
- Marketing specialist
- Social worker
- Psychologist
- Coach
- Art therapist
- Special Education Teacher
- Child Care Worker

Biology GCE

A Level / AQA

Biology graduates have some of the widest careers prospects, with environmental and biotechnology areas being major players. Biology is a demanding subject that requires a range of skills ranging from logic/thinking, maths, verbal communication and practical. You will need to be able to learn independently and as part of a team. A Level Biology is a linear course and lasts two years, with exams at the end of the second year

Year 12 content

- Biological molecules
- Cells
- Organisms exchange substances with their environment
- Genetic information, variation, and relationships between organisms

Year 13 content

- Energy transfers in and between organisms
- Organisms respond to changes in their internal and external environments
- Genetics, populations, evolution, and ecosystems
- The control of gene expression

Practical work

There are numerous opportunities to use practical experiences to link theory to reality and equip students with the essential practical skills they need and will be written up in laboratory books.

Assessments

There are three exams at the end of the two years for A Level, all of which are two hours long. Practical skills will be tested in the exams and students will also be awarded a pass on their certificate for the Practical Endorsement if they are able to demonstrate full competency in the required practical skills to their teacher

What do I need?

Five GCSE grades 9-4 (including grade 9-5 English, grade 6 Maths). Grade 6-6 in combined science or a grade 6 in Triple Science Biology.

What career could I have?

- Biomedical scientist
- Botanist / Gardener
- Dental nurse
- Environmental consultant
- Food scientist
- GP / Nurse / Doctor
- Health visitor
- Horticultural manager
- Microbiologist
- Oceanographer
- Ornithologist

Who can I contact for more information?

Mr J Wood

jwood@fromecollege.org.uk

Business BTEC

Level 3 National in Business (equivalent to one A Level)

The BTEC in Business level enables students to engage with, explore and understand business behaviour and develop a critical understanding of what business is and does. It is made up of three core units and one optional unit.

Year 12 content

Unit 1 – Exploring Business (Internally Assessed) A business is any activity that provides goods or services, whether that is to make a profit or not. The common thread in business is that owners and employees are striving to satisfy customers. Nowadays, customers are more informed and have more options in terms of what they buy and who they buy from, so a successful business is one that balances satisfying their customers with selling products or providing services.

Unit 2 – Developing a Marketing Campaign (External Assessment) Marketing is a dynamic field central to the success of any business. You will gain an understanding of how a marketing campaign is developed. You will explore different stages of the process that a business goes through when developing its campaign and develop your own campaign for a given product/service.

Year 13 content

Unit 3 – Personal and Business Finance (External Assessment) This unit includes aspects of both personal and business finance. Personal finance involves the understanding of why money is important and how managing your money can help prevent future financial difficulties. It is vital you understand the financial decisions you will need to take throughout your life and how risk can affect you and your choices. This unit will also give you an insight into where you can get financial advice and support.

Unit 8 – Recruitment and Selection Process, (Internally Assessed) Recruiting the right people is essential to the success of a business. It is important that the processes and procedures involved in recruitment and selection meet the needs of the business and comply with current regulations. You will learn that successful recruitment is key to maintaining the success of a business, as people are often considered to be the most valued resource. You will explore the various selection tools and the enhanced use of technology in this area. Businesses with an effective recruitment process in place are more likely to make successful appointments. In a competitive labour market this is a major advantage and will support business success

What do I need?

Five GCSE grades 9-4 (including grade 9 - 5 in English & Maths).

What career could I have?

- Logistics
- Business administration and office worker
- Enterprise and entrepreneurship.
- Project Manager
- Hospitality, Event Planner;
- Travel and Tourism
- Marketing and PR
- Human Resources
- Retail manager, Estate Agent
- Purchasing/procurement

Who can I contact for more information?

Ms S Wiltshire

Subject Lead

swiltshire@fromecollege.org.uk

Chemistry GCE

A Level /AQA

Chemistry is a demanding subject that allows students to develop a wide range of skills including logical thinking, mathematics, and practical mastery. The breadth and rigour of the course mean it is held in high esteem by universities and employers alike, facilitating entry onto prestigious courses and career pathways. To succeed on this course you must be determined to work hard and learn from your mistakes. In the exams, taken at the end of the two-year course, will need and eye for detail and an agile mind in order to achieve the highest grades.

Year 12 content

- Atomic structure
- Amount of substance
- Halogens
- Bonding
- Energetics
- Periodicity

Year 13 content

- Thermodynamics
- Rate equations
- Equilibrium constants
- Organic chemistry
- Nuclear magnetic resonance spectroscopy
- Chromatography

Practical work

There are numerous opportunities to use practical experiences to link theory to reality and equip students with the essential practical skills they need and will be written up in lab books.

Assessments

There are three exams at the end of the two years for A Level, all of which are two hours long. Practical skills will be tested in the exams and students will also be awarded a pass on their certificate for the Practical Endorsement if they are able to demonstrate full competency in the required practical skills to their teacher

What do I need?

Five GCSE grades 9-4 (including grade 5 English, grade 6 Maths). Grade 6-6 in Combined Science or a grade 6 in Triple Science Chemistry.

What career could I have?

- Anaesthetist
- Chemical engineer
- Chemist
- Dentist
- Energy engineer
- Food scientist
- Forensic scientist
- Geotechnician
- GP/doctor/nurse
- Laboratory technician

Who can I contact for more information?

Mr P Jones
Subject Lead
pjones@fromecollege.org.uk

Children's Play, Learning and Development

BTEC Level 3 National Extended Certificate/ Pearson (equivalent to one A Level)

This course has been designed to be a vocational course. The course covers a range of units and will allow you the opportunity to develop your skills and broaden your knowledge within this subject. The course will give you the opportunity to work in a professional manner and get hands-on experience gaining knowledge in specialist areas.

The BTEC is a work-related course, but when you have finished the course, you can use the qualification to help get a job straight away or go into further or higher education, in the same way as your other A Levels will help you. You will study four units of work overall during the course. These are made up of:

Externally assessed units:

- Unit 1: Children's Development (Year 12)
- Unit 2: Development of Children's Communication, Literacy and Numeracy (Year 13)

Internally assessed units:

- Unit 3: Play & Learning (Year 12)
- Unit 5: Keeping Children Safe (Year 13)

These units will be taught over the two years of the qualification. This BTEC qualification will be assessed through two written exams for Unit 1 which will take place in Year 12 and for Unit 2 which will take place in Year 13. You will also be expected to complete written assignments that will be set for the two remaining units.

Work experience is a key part of the BTEC National Award in CPLD. It is expected that students complete a minimum of 50 hours over the two years of the course. We have extensive links with local employers who offer our students a wide range of work placement opportunities. Students can therefore undertake placement in the following areas: pre-schools, nurseries, first and primary schools, centres for children with additional needs.

By the end of the course, you will have experienced a variety of settings for which the placements will have been organised to suit your needs. This practical experience is an important part of the course as both employers and universities recognise its value.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English & Maths).

What career could I have?

- Nursery Assistant/ Manager
- Teaching
- Registered Childminder
- Nanny – opportunities abroad & UK
- Children's Nursing
- Travel Representative-
- children's entertainment
- Youth Worker
- Social Work

Who can I contact for more information?

Mrs K Hyde

Subject Lead

khyde@fromecollege.org.uk

Computer Science

GCE A Level / OCR

Computer science at A Level is a vibrant course that combines theory and practice. You will learn to code, or code better, think through problem solving exercises, and gain understanding of how computers as systems have embedded themselves into everything from games for toddlers, to the building of empires.

Year 12 content

The first year of the A Level is focused on the principles of computing as well as building a strong programming skillset. Students will learn both Python and C++ . Mini-projects focusing on core algorithms, the stages of agile programming and theoretical concepts are taught using lectures, presentations, student-led discussions, and practical demonstrations. Students are expected to program at home at least five hours a week during this course.

Year 13 content

Paper 1 – Computer Systems Written examination
2 hours 30 minutes (40%)

This paper focuses on the internal workings of the CPU, data exchange, software development, data types and legal and ethical issues.

Component 2 – Written examination 2 hours 30 minutes (40%)

This paper focuses on using computational thinking and problem solving. Students will design algorithms to answer questions about programming in order to describe and solve problems.

Component 3 – Non-exam assessment (20%)

Programmed solution to a problem Candidates discuss, investigate, design, prototype, refine and implement, test, and evaluate a computerised solution to a problem chosen by the candidate which must be solved using original code (programming). This is a substantial piece of work, undertaken over an extended period

What do I need?

Five GCSE grades 9-4 (including grade 9 - 6 Maths & grade 9 - 6 GCSE Computing).

What career could I have?

- Computer Programming
- Engineering
- IT
- Computer Technician
- Project Manager
- Designing new technology
- i.e., phone apps
- Game Design/Development
- Communications Services
- Cyber Security
- Software Engineer
- Web Designer

Who can I contact for more information?

Mr P Durber

Subject Lead

pdurber@fromecollege.org.uk

Dance

BTEC Level 3 National Extended Certificate in Performance (equivalent to one A Level)

This course offers an engaging programme to support learners who want to pursue a career in Dance. Dance students will develop both their technical performance skills through physical training whilst also working as choreographers exploring the structure and content of dance performance.

The qualification takes a unit-by-unit approach and offers a combination of assessment styles. This gives the learner the opportunity to showcase their skills and apply their knowledge in an appropriate, work-related context, and provides evidence of what they can do when they apply to enter higher education or employment.

This course is particularly suitable for students who have studied BTEC Level 2 Dance.

Content

Learners must complete and achieve a Pass or above for all 5 units.

- Mandatory Units – Learners complete and achieve both units

Unit 3 Groups Performance Workshop

Unit 34 Developing Skills and Techniques

- Optional Unit Groups – learners only complete three units

Unit 10 Jazz Dance Technique

Unit 12 Contemporary Dance Technique

Unit 13 Healthy Dancer

Unit 14 Choreography for Live Performance

Unit 21 Improvisation

Unit 22 Movement in Performance

Skills needed to succeed

Students who wish to do Dance should be able to learn and memorise movement sequences very well, analyse and evaluate dance works as well as apply the practical knowledge gained to the written section of the course. Students will complete each task, making sure they have clear notes and have fulfilled the assessment criteria. The modules are either internally or externally assessed. Although work and assessment are practical based, students are expected to keep logbooks of each production. Students must be focused and dedicated in their notetaking and organisation. There needs to be a high level of commitment and willingness to work on an ongoing basis from an academic and choreographical perspective, including independent rehearsals.

What do I need?

Five GCSE grades 9-4 (including 9-4 in English and Maths) with a minimum of a merit in Level 2 BTEC Dance

What career could I have?

- Dance teacher
- Choreographer
- Dance Community Artist
- Performer
- Dance Administrator
- Dance Health Practitioner
- Dance Scientist

Who can I contact for more information?

Miss S Harper

Subject Lead

sharper@fromecollege.org.uk

Drama and Theatre

GCE A Level / Edexcel

Year 12 Content

- Explore the set texts of Hedda Gabler and Our Country's Good through both practical and Written tasks.
- Begin to decide and explore three texts of your own choosing that you wish to perform.
- Write the basic section of the reflective report.
- Develop knowledge and understanding of chosen drama practitioners.
- School theatre trips to watch live Theatre ready for live theatre review
- Trip to National theatre to watch Our Country's Good and Hedda Gabler.
- Select stimuli for Devising piece and begin to develop a script and story line.
- Begin the working Notebook.
- Maintain regular lessons on the written paper (1 and fortnight)

Year 13 Content

- Finish and perform devising piece and written Note book
- Select chosen extract to perform for visiting examiner and apply a practitioner
- Finish the Reflective report
- Return to written paper prep to ensure success in the written paper
- More live theatre

Course Structure

- Component 1 – Drama and Theatre (Written paper 40%)
Section A: one question (from a choice) on one of the set plays from List A – Hedda Gabler (25 marks)
Section B: one three-part question on a given extract from one of the set plays from List B – Our country's Good (30 marks)
Section C: one question (from a choice) on the work of theatre makers in a single live theatre production (25 marks)

- Component 2 – Creating Original Drama (Practical 30%)
Process of creating devised drama assessed through a working notebook
Performance of devised drama (students may contribute as performer, designer or director)
Devised piece must be influenced by the work and methodologies of one prescribed practitioner

Component 3 – Making Theatre

Practical exploration and interpretation of three extracts (Extract 1, 2 and 3) each taken from a different play
Methodology of a prescribed practitioner must be applied to Extract 3

Extract 3 is to be performed as a final assessed piece (students may contribute as performer, designer or director)
Reflective report analysing and evaluating theatrical interpretation of all three extracts

What do I need?

Five GCSE grades above level 5 (including grades 9-4 in English and Maths and a minimum of grade 5 in GCSE Drama or English).

What career could I have?

- Acting (TV, Film, Stage and Radio)
- Directing and Producing
- Theatre/Arts Management
- Technical design (Lighting/Sound/Set)
- Stage Management
- Media Production
- Teaching
- Drama Therapist
- Playwright/Screenwriter

kplomer@fromecollege.org.uk

Education & Childcare

T Level Level 3 Exam board: NCFE (equivalent to 3 x A Level)

This T Level qualification will provide you with an insight into working in the childcare sector. It will provide you with the skills needed to progress into employment or higher-level training. This course has a knowledge element that you will complete in school, alongside developing your workplace skills by undertaking 750 hours in work placement in a school or early years environment.

Content

The core content of the qualification covers the following topics:

- understanding the education and childcare sector from ages 0 to 19
- child development
- how to support children and young people's education
- safeguarding, health and safety and wellbeing
- understanding and managing behaviour
- observing and assessing children and young people
- equality and diversity
- special educational needs and disability
- working with parents, carers, and wider families
- working with agencies and services that support children, families, and carers
- reflective practice and other forms of professional development

Work Placement

Throughout the course you will undertake a variety of different work placements to give you a wide experience of the different types of provision in the sector. This will include working in different settings and with a variety of age groups of children. You work placement and your teacher will work closely together to support you to develop your skills as an early year's practitioner. You will be asked to wear a Vocational Skills department polo shirt for your work placement.

How the course will be assessed?

Assessment is through examinations and a work placed project, that will be set by your work placement supervisor

This qualification will support learners on to a range of progression routes including employment and higher apprenticeships. The T Level study programme is eligible for UCAS points equivalent to three A levels. The degrees that you could progress into include teacher training, early childhood studies, psychology, or social work.

Need more information? <https://www.ncfe.org.uk/technical-education/t-levels/education-and-childcare/>

What do I need?

Five GCSEs 9-4 (including grades 9-4 in English and Maths).

What career could I have?

- Early Years Educator
- Classroom Teaching Assistant
- Special Needs Assistant
- Teacher
- Social Worker
- Children's Rep in holiday destinations/cruise ships
- Psychologist
- Nursery Manager

English Language and Literature

GCE A Level / OCR

The English department is proud of producing critical, creative and thoughtful students who combine their love of reading with writing artistry. OCR English Language and Literature is the course for you if you love literature but also have enjoyed the writing aspects of GCSE and want to explore the world of non-fiction as well as thought provoking poetry, plays and novels.

A Level course structure

- Component 1: Exploring non-fiction and spoken texts. One-hour exam (16%)
Focuses on an anthology of spoken and written texts from the 17th century to the modern day. In the exam students will compare one published text from the anthology with an unseen text.
They will explore how the context of the text impacts how language is used.
- Component 2: The language of poetry and plays. Two-hour exam (32%)
Students study a collection of poetry from a choice of six poets. In section A, they write an extended essay comparing one published poem to any other two from the collection. To prepare for section B students study a play text from a choice of six and in the exam will write an extended

essay closely analysing how language shapes meaning in a published extract. A significant part of the student's analysis will be rooted in how the context of the text influences their understanding.

- Component 3: Reading as a writer, writing as a reader. Two-hour exam (32%)

Focussing on narrative writing, students study the novel from a choice of six and write an extended essay in Section A analysing how the writer shapes meaning. In section B students write their own narrative, accompanied by a commentary that explores their creative choices.

- Component 4: Analysing and producing texts. Independent study component (20%)

The independent study is a coursework component submitted in the spring term of 2022.

Task 1: A 2000-word comparative essay that compares a non-fiction set text (from a choice of 12) with a book of the student's own choice from any genre.

Task 2: A 1000-word piece of original non-fiction writing including an introduction that shows an understanding of the way in which the chosen genre reveals itself.

What do I need?

Five GCSE grades 9-4 (including grades 9-5 in Maths, at least one 9 - 5 in either English Literature or English Language).

What career could I have?

- Advertising
- Teaching
- TV or film producer/actor
- Screenwriter
- Radio Broadcast Assistant
- Journalist (newspapers)
- Public Relations
- Advertising Copywriter
- Arts Administrator
- Commissioning Editor

English Literature

GCE A Level / OCR

The English department is proud of producing critical, creative and thoughtful students who combine their love of reading with writing artistry. This OCR English Literature course will challenge your ideas and open up new worlds of thought and experience for literature lovers.

Course structure

- Component 1: Exploring non-fiction and spoken texts.
One-hour exam (16%)

Focuses on an anthology of spoken and written texts from the 17th century to the modern day. In the exam students will compare one published text from the anthology with an unseen text.

They will explore how the context of the text impacts how language is used.

- Component 2: The language of poetry and plays.
Two-hour exam (32%)
Students study a collection of poetry from a choice of six poets. In section A, they write an extended essay comparing one published poem to any other two from the collection. To prepare for section B students study a play text from a choice of six and in the exam will write an extended essay closely analysing how language shapes meaning in a published extract.

A significant part of the student's analysis will be rooted in how the context of the text influences their understanding.

- Component 3: Reading as a writer, writing as a reader.

Two-hour exam (32%)

Focussing on narrative writing, students study the novel from a choice of six and write an extended essay in Section A analysing how the writer shapes meaning. In section B students write their own narrative, accompanied by a commentary that explores their creative choices.

- Component 4: Analysing and producing texts.
Independent study component (20%)

The independent study is a coursework component submitted in the spring term of 2022.

Task 1: A 2000-word comparative essay that compares a non-fiction set text (from a choice of 12) with a book of the student's own choice from any genre.

Task 2: A 1000-word piece of original non-fiction writing including an introduction that shows an understanding of the way in which the chosen genre reveals itself.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in Maths, and 9 - 6 in both English Literature & English Language).

Film Studies

GCE A Level / Eduqas

Film Studies is the academic study of film and is designed to deepen students' understanding, appreciation, and enjoyment of film - the major art form of the twentieth century. It is an interesting and challenging course which will develop students' written, analytical and creative skills.

At the root of all film studies is a recognition of how films are made. They are constructed using a range of elements – cinematography, mise- en-scène, sound, editing and performance (the key elements of film form) – which are organised structurally in terms of narrative and often genre.

How filmmakers use these elements - frequently in complex and highly artistic ways - is a large part of what constitutes the formal study of film. Equally important is how spectators respond to the work filmmakers create and how learners interpret the films with reference to spectator response, relevant contexts, critical approaches and debates. In turn, these formal studies have a direct impact on students' own work as filmmakers and screenwriters.

This course focuses on the analysis and deconstruction of film over a wide historical time frame:

The Classical Hollywood period (1930- 1960)

- The New Hollywood period (1961-1990)
- British film since 1995
- American film since 2005

This course involves studying a range of different films (14 in total). These are separated into set categories:

- American film
- British film
- Independent film
- Global film
- Documentary film
- Experimental film
- Silent Film
- Short Films

These films are analysed via a number of different study area frameworks, including film form, meaning and response, context, spectatorship, narrative, ideology, authorship, critical debates and theoretical debates.

Subject Content

- Component 1 (Varieties of Film and Filmmaking)

Written examination: 2 hour 30 mins, 35% of qualification.

Section A: Hollywood 1930-1990 (40 marks)

Learners are required to study two films, one from each of the following categories:

- Classical Hollywood (1930 – 1960)
- New Hollywood (1961 – 1990)

Cont....

Film Studies cont.

GCE A Level / Eduqas

Section B: American film since 2005 (40 marks)

Learners are required to study two films, one from each of the following categories:

- Mainstream American film
- Contemporary American independent film

Section C: British film since 1995 (40 marks)

Learners are required to study two films from the following category:

British film since 1995

Component 2 (Global Filmmaking Perspectives)

Written examination: 2 hour 30 mins, 35% of qualification.

Section A: Global Film (40 marks)

Learners are required to study two films, one from each of the following categories:

- European film
- Outside Europe

Section B: Documentary Film (20 marks)

Learners are required to study one film from the following category:

- Documentary film

Section C: Film Movements - Silent Cinema (20 marks)

Learners are required to study one film from the following category:

- Silent Cinema

Section D: Film Movements – Experimental Film (20 marks)

Learners are required to study one film from the following category:

Experimental film (1960-2000)

Component 3 (Production)

Non-exam assessment, 30% of qualification.

Production Options (40 marks)

- Option 1: Short Film (4 - 5 minutes)
- Option 2: Screenplay for a short film words) (1600-1800 words)

Evaluative Analysis (20 marks)

Written Evaluation (1600 – 1800 words)

Fine Art

GCE A Level / AQA

Year 12 content

You will explore a range of techniques and processes such as screen printing, painting, sculpture, printmaking to develop a portfolio of work, using a broad starting point.

Drawing and mark-making is a key focus of this unit – and throughout A Level art.

Students respond to a number of artists and other influences to form their own ideas to develop this portfolio of work and to conclude the project through personal outcomes. A Year 12 Mock Unit will take place after February.

Year 13 content

Component 1 - Coursework (60%) Personal project:
Students are expected to generate their own ideas and themes to create a highly personal project worth 60% of their final grade. The work also focuses on preparing art college applicants' portfolios to cater for the needs of students. The work is accompanied by a 1500-3000-word essay to justify the project.

Component 2 - Exam (40%)

This exam follows a similar format to the Yr 12 mock. It culminates in a 15-hr controlled test in which students create and complete a final outcome at the end of the exam period.

Attributes and Behaviours of an Art Student

- Working for 4/5 hours out of lessons a week. Using free periods to work in department should be a habit.
- Willingness to follow the assessment objectives and the specification.
- Constantly gather and research ideas via Pinterest, read books and articles about your subject, attend exhibitions and shows that feed your ideas and inspiration.
- Have a clear plan of how you will use your time in and out of lesson. Plan this time and have a proactive attitude towards your work.
- Be willing to hear and seek and use feedback from others. Being reflective and willing to move ideas forward is important.
- Be resilient and mature about the importance of this work.
- Listen to the advice of your Teacher- read your feedback and take part in group critiques, being able to discuss your work whilst sharing ideas for others.
- Take creative risks and be open to try new processes and techniques.
- Be selective with your work and take pride in all you present.
- Research ideas thoroughly and respond to the ideas you investigate, not just aesthetics.
- Love your work!

What do I need?

Five GCSEs 9 - 4 (including grades 9-4 in English and Maths and grade 6 or above in Art and/or Photography)

What career could I have?

- Graphic Designer
- Interior Designer
- Illustrator / Fine Artist
- Beautician
- Media
- Fashion Stylist
- Florist
- Architect
- Model maker for film
- Gallery Curator

Who can I contact for more information?

Ms E Knibbs

Subject Lead

French

GCE A Level / AQA

Year 12 content

- Terms 1 and 2: Aspects of French-speaking society

We will look at the changing nature of the family; the 'cyber society'; the place of voluntary work. There will be a focus on grammar and a selection of films and songs.

- Terms 3 and 4: Artistic culture in the French-speaking world

We will focus on contemporary francophone music; cinema and the cultural heritage of French-speaking countries. Once again, there will be a focus on grammar and a selection of films and songs.

- Terms 5 and 6: Film

We will focus on studying the chosen film as part of the cultural element of the course.

Aspects of French-speaking society

We will look at the positive features of a diverse society, life for the marginalised and the treatment of criminals.

Year 13 content

- Terms 1 and 2: Aspects of political life in the French-speaking world

We will cover the rights of teenagers, the right to vote and political commitment; demonstrations, strikes – who holds the power? Politics, immigration, and grammar.

- Terms 3 and 4

We will focus on studying the literary text as part of the cultural element of the course. There will also be extra preparation for the speaking exam. During terms 1 to 4 you will be able to research and prepare your individual project for the speaking assessment.

- Terms 5 and 6

Exam focus and topic review.

Exams

There are three exams at A Level:

- Reading, listening, and responding to a variety of texts based on the topics covered (2 hours 30 mins - 50%)
- A written exam based on the text or and the film studied, plus a translation into French (2 hours - 20%)
- A speaking test of 21-23 minutes discussing one of the sub-themes, a presentation of your research project and a discussion based on this (30%)

For more information on this course visit
www.aqa.org.uk

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths and a minimum grade 6 in French).

What career could I have?

- Interpreter / Translator
- Logistics or distribution manager
- Travel Agent-Tour Operator
- Working abroad in any industry
- Broadcast Journalist
- Diplomatic Service
- Teacher/ Lecturer
- International Aid

Who can I contact for more information?

Ms M Kreile
Subject Lead
mkreile@fromecollege.org.uk

Geography

GCE A Level / AQA

Year 12 content

Topic 1 – Hazards

- The impacts of volcanic eruptions
- How countries mitigate hazards
- Managing earthquakes and tsunamis
- The impacts of tropical
- The Alberta wildfire

Topic 2 – Glaciated systems and landscapes

- The characteristics of cold environments
- How glaciers create erosional and depositional landforms
- What are periglacial areas like?
- The effects of climate change

Topic 3 – Changing places

- What makes a place unique?
- Which factors contribute to making a place different to another?
- How do our relationships and connections affect the way we view a place?
- How do people attempt to influence our perception of a place?

Topic 4- Population and the environment

- How is population distributed around the world? What are the factors affecting this?

- How will population change in the future?
- How does obesity vary around the world? Why is this?
- Why is there such health inequality around the world?
- How and why is Japan's population changing?

Year 13 content

Topic 1 – Water and carbon cycles

- Water and carbon cycles
- Drainage basins
- Flood risk
- Factors affecting the stores of carbon around the world
- Global climate

Topic 2 – Global systems and governance

- What is globalisation?
- What are the causes of inequalities and conflicts around the world?
- How are global trade and Transnational Corporations changing our world?
- What is the 'Global Commons'? How does it protect Antarctica?

Topic 3 – Enquiry project

Students complete an individual investigation (3000-4000 words) to include data collected in the field during our multi-day fieldtrip.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English & Maths and a minimum grade 6 in Geography if taken, if not grade 9-6 in English).

What career could I have?

- Cartographer
- Environmental Consultant
- Geographical Information Systems Officer
- Planning and Development Surveyor
- Teacher/ Lecturer
- Town / Transport Planner
- International Aid
- Landscape Architect
- Logistics and Distribution
- Nature Conservation
- Sustainability Consultant
- Tourism Officer

Who can I contact for more information?

Mr J Haines
Subject Lead

jhaines@fromecollege.org.uk

Geology

GCE A Level/ OCR

What will I study?

The course seeks to develop a scientific insight into the natural environment, to deepen an understanding and appreciation of landscape and scenery and to address a broad range of environmental issues.

The fundamental aspects of Geology e.g., mineral & rock types, palaeontology and plate tectonics are blended with more applied topics such as Hydrogeology, Engineering Geology, waste disposal, mining and the monitoring, prediction, and management of geological hazards such as earthquakes and volcanoes.

Both practical work and field work are essential elements of the course which seeks to equip learners with a toolkit of geological skills which are transferable to future study or related careers. In addition to being a practical investigative science subject Geology also helps to develop essay writing, drawing, numerical, graphical, visual spatial and cartographic skills.

It compliments subjects such as Chemistry, Biology and Geography

How is the course assessed?

The assessment consists of three exams, with a total of 6 hours of assessment time.

In addition, there is direct assessment of practical skills in the Practical Endorsement as well as indirect assessment of practical skills through one of the 3 examinations (15% weighting)

Essential Skills for success:

Students who demonstrate an organised and methodical approach to both written and practical work and who can be relied upon to meet deadlines consistently. A team player who works well with others and is willing to offer thoughtful contributions to class discussion.

Future Study pathways?

The course offers a firm basis for the further study of Geology and courses that contain Earth Science modules. Possible degree courses include: Geology, Applied Geology, Engineering Geology, Civil Engineering, Geography & Environmental Science.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English & Maths and which must include a grade 4-4 in Double Science (grade 5-5 desirable).

What career could I have?

- It is advantageous for jobs within the oil industry
- environmental work
- mining
- civil engineering

Who can I contact for more information?

Mr John Robson

Subject Lead

jrobson@fromecollege.org.uk

Graphics

GCE A Level / AQA

Year 12 content

You will work to a campaign brief, chosen by you and will be learn a range of image-making and typographical techniques developing them into creative design solutions. You will learn the principles of graphic design using Photoshop, Illustrator and a wide selection of media and techniques; analysing the methods and working practices of a range of graphic designers and artists. You will also experience working on a 'live brief' and have regular meetings with your client and tutorials with your teachers as you develop your ideas, to deliver high quality designs within the deadlines. By Easter, you will identify a design brief and spend the summer term researching and developing your own design proposals and analysing the work of relevant artists and designers as part of the Personal Investigation which continues in year 13.

Year 13 content

Component 1 - Coursework (60%) Personal Investigation: advanced graphic design techniques. Students are expected to generate their own brief exploring a specialization their choice. Previous projects include: corporate idents, typography, layout and production design for advertisements, illustrations, magazines and packaging, campaigns, re-brands and developing brand identity. The emphasis is on building advanced skills in design and emphasis is on building advanced skills in design and layout, particularly in using Photoshop and Illustrator in conjunction with traditional techniques.

Component 2 - Exam (40%) You will select a brief or starting point set by the Exam board and explore, develop and deliver design solutions. It culminates in a 15 hour long controlled test, in which you create and present the designs to meet the brief you selected.

Attributes and Behaviours of a Graphic Design Student

- Working for 4/5 hours out of lessons a week. Using free periods to work in department should be a habit.
- Willingness to follow the assessment objectives and the specification.
- Constantly gather and research ideas via Pinterest, Behance, read books and articles about your subject, attend exhibitions and shows that feed your ideas and inspiration.
- Have a clear plan of how you will use your time in and out of lesson. Plan this time and have a proactive attitude towards your work.
- Be willing to hear and seek and use feedback from others. Being reflective and willing to move ideas forward is important.
- Be resilient and mature about the importance of this work.
- Listen to the advice of your Teacher- read your feedback and take part in group critiques, being able to discuss your work whilst sharing ideas for others.
- Take creative risks and be open to try new processes and techniques.
- Be selective with your work and take pride in all you present.
- Research ideas thoroughly and respond to the ideas you investigate, not just aesthetics.
- Love your work!

What do I need?

Five GCSEs grades 9-4 (including grades 9-4 in English and Maths and grade 5 or above in Art and/or Photography due to the demand for drawing skills).

What career could I have?

- Graphic Designer
- Museum curator
- Illustrator
- Creative Director
- Media
- Fashion Stylist
- Florist
- Architect
- Model maker for film

Who can I contact for more information?

Ms K Knibbs

knibbs@fromecollege.org.uk

Health and Social Care

BTEC Level 3 National Extended Certificate / Pearson (equivalent to one A Level)

The Health and Social Care course has been designed to be a vocational course. The course covers a range of units and will allow you the opportunity to develop your skills and broaden your knowledge within this subject. The BTEC is a work-related course, but when you have finished the course, you can use the qualification to help get a job straight away or go into further or higher education, in the same way as your other A Levels will help you. You will study four units for your Health and Social Care course.

You will gain UCAS points in the same way as you will for A Levels. You will study four units of work overall during the course.

These are made up of:

Externally assessed units:

- Unit 1: Human Lifespan Development (Year 12)
- Unit 2: Working in Health and Social Care (Year 13)

Internally assessed units:

- Unit 5: Meeting Individual Care and Support Needs (Year 13)
- Unit 11: Psychological Perspectives (Year 12)

These units will be taught over the two years of the qualification.

This BTEC qualification will be assessed through two written exams for Unit 1 which will take place in Year 12 and for Unit 2 which will take place in Year 13. You will also be expected to complete written assignments that will be set for the two remaining units.

This BTEC course is a modular course and allows you to study particular areas of interest in more detail through specialist units. To pass a particular course (and gain the qualification), you must have completed and passed all grading criteria within each unit you study

What do I need?

Five GCSE grades 9-4 (including 9-4 in Maths and English).

What career could I have?

- Health Service
- Medical Sales Representative
- Adult Nurse
- NHS worker administrative or working with patients
- Counsellor
- Dental Hygienist
- Occupational Therapist
- Personal Trainer
- Social Worker
- Care Worker

Who can I contact for more information?

Mrs K Hyde

Subject Lead

khyde@fromecollege.org.uk

History

GCE A Level / OCR

Content and assessment

- Paper 1: (Subject to change)
British study and enquiry (25%)
The early Stuarts and the Civil War, 1603–1660
Topics include the Gunpowder Plot, the English Civil War and Oliver Cromwell.

Exam

Written exam of one hour and thirty minutes.

- Paper 2:
Non-British period study (15%) Democracy and dictatorships in Germany, 1919–1963
Topics include Weimar Germany, the Nazis, and Germany in the Cold War.

Exam

Written exam of one hour.

- Paper 3:
Thematic study and historical interpretations(40%)
Civil Rights in the USA, 1865-1992.
Topics include the fight for equality for African Americans, Native Americans, Women and Workers.

Exam

Written exam of two hours and thirty minutes

Non-exam assessment:

Coursework (20%)
3,000 to 4,000 words.
Specialised on either paper 1 or paper 2 topics, student choice. There is flexibility for other topics which is decided on a student by student basis.

In A Level History, all examinations are taken at the end of Year

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths. Grade 5 in GCSE History If you studied, if not grade 6 or above in English).

What career could I have?

- Health Service
- Heritage Manager, Historic buildings/conservation inspector
- Museum or Gallery Curator
- Teacher/Lecturer
- Archaeologist/Archivist
- Broadcast Journalist
- Civil Service Administrator
- Law: Solicitor

Mathematical Studies

(Core Maths) Level 3 Certificate / AQA

Level 3 Mathematical Studies (Core Maths) is a qualification designed for students who have achieved a grade 5 or above at GCSE, who would benefit from continuing to study

Maths, but who won't necessarily continue onto a Maths/Science or Engineering Degree.

Why should I study Core Maths?

Core Maths has been designed to maintain and develop real life maths skills. What you study is not purely theoretical or abstract; it can be applied on a day-to-day basis in work, study or life and most courses will include a financial maths element. It will also help with other A Level subjects – in particular with Science, Geography, Business Studies, Psychology and Economics.

The skills developed in the study of mathematics are increasingly important in the workplace and in higher education; studying Core Maths will help you keep up these essential skills. Most students who study Maths after GCSE improve their career choices and increase their earning potential.

Assessment

This course is a one-year linear course. Linear means that all assessment is at the end of the course.

Paper 1 – Compulsory Units

Written exam (1 hour 30 minutes)

- Analysis of Data
- Maths for Personal Finance
- Estimation

Paper 2 – Statistical Techniques

- Critical Data Analysis
- The Normal Distribution
- Probabilities and Estimation
- Correlation and Regression

For those wishing to go to university

Core Maths should be taken as a fourth subject, alongside three other full A Level subjects. It counts as an AS qualification for UCAS applications.

What do I need?

No requirements.

What career could I have?

- Accountant
- Air Traffic Controller
- Cryptologist
- Dispensing Optician
- Electrical Engineer
- Environmental Specialist
- Financial Analyst
- Forensic Scientist
- Insurance Claims Handler
- Naval Architect
- Mechanical Engineer

Who can I contact for more information?

Mr R and Mrs J Cole

Subject Leads

rcole@fromecollege.org.uk

jcole@fromecollege.org.uk

Mathematics

A Level / Edexcel

This is a two-year linear course. The modules have an early emphasis on topics which develop and extend ideas from GCSE to GCE Level. We track students with ongoing topic assessments and Pure and Applied summative assessments to ensure they are prepared to tackle exam-style questions.

This qualification is assessed in three exam papers, each lasting two hours and worth 33.3% of the overall mark.

There is a lot of content to cover in this course and therefore students need to be prepared to complete 1-2 hours' worth of homework after EVERY lesson. Students need to be prepared to work consistently hard and in an independent manner if they wish to be successful on this course.

Component 1: Pure Mathematics (66%)

- Proof
- Algebra and functions
- Coordinate geometry in the x-y plane
- Sequences and series
- Trigonometry
- Exponentials and logarithms
- Differentiation

- Integration
- Numerical methods
- Vectors

Component 2: Statistics and Mechanics (33%)

- Statistical sampling
- Data presentation and interpretation
- Probability
- Statistical distributions
- Statistical hypothesis testing
- Quantities and units in mechanics
- Kinematics
- Forces and Newton's laws
- Moments

What do I need?

Five GCSE grades 9-4 (including grade 7 or above in Maths).

What career could I have?

- Accountant
- Air Traffic Controller
- Cryptologist
- Dispensing Optician
- Electrical Engineer
- Environmental Specialist
- Financial Analyst
- Forensic Scientist
- Insurance Claims Handler
- Naval Architect
- Mechanical Engineer

Who can I contact for more information?

Mr R and Mrs J Cole

Subject Leads

jcole@fromecollege.org.uk

Mathematics (Further)

A Level / Edexcel

Students take the two mandatory units and any two of the optional units to be awarded an A Level in Further Mathematics. It is possible to take an AS Level in Further Mathematics.

The optional units followed are decided by the class and the teacher together. Students need a grade 8 or above to study this course.

The Overarching Themes (mathematical argument and language and proof, mathematical problem-solving, mathematical modelling) must be applied along with associated mathematical thinking and understanding, across the whole of the subject content.

Mandatory units

Pure Core (Y540 and Y541)

In Pure Core learners will extend and deepen their knowledge of proof, algebra, functions, calculus, vectors and differential equations as studied in A Level Mathematics. They will also broaden their knowledge into other areas of pure mathematics such as complex numbers, matrices, polar co-ordinates and hyperbolic functions

These underpin the further study of mathematics and other numerate subjects. Each of these two units will be assessed with a 90-minute exam worth 25% of your final mark.

Optional units

(Y542, Y543, Y544 and Y545)

Learners will study any two areas chosen from Statistics, Mechanics, Decision Mathematics and Additional Pure Mathematics. These units assess the relevant content area and all the overarching themes.

Each of these two units will be assessed with a 90-minute exam worth 25% of your final mark.

What do I need?

Five GCSE grades 9-4 (grade 8 or above in Maths)

What career could I have?

- Accountant
- Air Traffic Controller
- Cryptologist
- Dispensing Optician
- Electrical Engineer
- Environmental Specialist
- Financial Analyst
- Forensic Scientist
- Insurance Claims Handler
- Naval Architect
- Mechanical Engineer

Media

GCE A Level / Eduqas/WJEC

The Media department has an outstanding reputation for producing well-rounded, engaged and insightful students who go on to become successful in some of the UK's largest media companies.

Year 12 content

Terms 1 and 2

- Introduction to Media
- Component 1 Section A: Analysing Media Language and Representation: advertising, marketing, music videos, newspapers
- Component 1 Section B: Understanding Media Industries and Audiences

Terms 3 and 4

- Component 2 Section A: Television in the Global Age
- Component 1 Section A: Analysing Media Language and Representation: Video games
- Component 2 Section A: Magazines: Mainstream and Alternative Media
- Component 3: Cross-Media Production – start of coursework

Year 13 content

Terms 1 and 2

- Component 3: Cross-Media Production – completion of coursework
- Component 2: Section C – Media in the Online Age

Terms 3 and 4

- Revision of exam set texts – Component 1
- Revision of exam set texts – Component 2

Terms 5 and 6

- Targeted exam revision – Component 1 and 2
- Component 3: Cross-Media Production – submission of coursework

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths).

What career could I have?

- Media Industry
- Multimedia Specialist
- Public Relations Officer
- Broadcasting: film/video/ runner
- Social Media Manager
- Television/film; Director, Programme Researcher
- Web Content Manager
- Advertising
- Journalist; Broadcast or Magazine/Editorial Assistant
- Event Manager

Music

GCE A Level / Eduqas

Year 12

- Terms 1 and 2

Music History

How to analyse music using the elements. Focus on set works for The Western Classical Tradition area of study

Music Theory

Understanding chords, inversions and scales. An introduction to four-part chorale harmony (SATB), remixes and arrangements.

Music Performance

Preparing your recital, confidence and projection, workshop of recitals to peers.

Music Composition

What makes a good melody? Finding inspiration when staring at the blank canvas, developing themes, structuring emotive flow, harnessing textures.

- Terms 3 and 4

Music History

Focus on set works and Pop and Rock music area of study. Advanced vocabulary.

Music Theory

Understanding harmonic progressions, using Roman numerals for harmonic analysis.

Music Performance

Preparing for the recital.

Music Composition

Developing and completing the finished composition, how to write analytically about your composition and create a score/commentary.

- Terms 5 and 6

Focus on fusions and new direction set works and revision skills. Preparation for chorale and harmony analysis. Further developing of listening skills and compositional techniques.

Year 13

You will study music of the twenty first century. You will also perform your recital and complete your composition portfolio.

In addition to offering A Level Music and A Level Music Technology, Frome College is keen to offer A Level 3 BTEC in Music Performance or Performing Arts if there is enough interest.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths and grade 9-6 in Music. Plus the ability to read treble and bass clef notation and Grade 5 in singing/playing an instrument).

What career could I have?

- Musician
- Music teacher/therapist
- Sound Technician; broadcasting/film/radio
- Arts Administrator
- Event Manager
- Theatre Stage Manager

Who can I contact for more information?

Mr J Hampson

Subject Lead

jhampson@fromecollege.org.uk

Music Technology

GCE A Level / Edexcel

Year 12

- Terms 1 and 2

Topics covered include how mics work, the channel strip, close-mic recording, listening skills, and sequencing basics. Students also study the development of popular music from the viewpoint of recording and production techniques.

- Terms 3 and 4

How to use EQ, principles of compression, adding and controlling FX, making MIDI sequences musical. You start recording your close-mic task and ensure you have the skills to operate as sound engineer for this task. In addition to the audio recording focus, you will also delve into more advanced MIDI applications in preparation for the composition task.

- Terms 5 and 6

Review of recording, MIDI and production skills. Mixing and mastering is a main focus for the term as is developing ideas for the composition. You will also develop an understanding of samplers and synthesis.

Year 13

- Terms 1 and 2

The recording component must be coming to a conclusion, and you will also be starting the composition. At this point the Producing and Analysing exam comes into clearer focus with much of last year's teaching feeding into this. You will learn how to use production techniques for corrective and enhancing reasons.

Assessment

There are four components:

- Component 1 - Recording (20% of final grade)
- Component 2 - Technology-based composition (20% of final grade)
- Component 3 - Listening and analysing (25% of final grade)
- Component 4 - Producing and analysing (35% of final grade)

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths. A genuine interest in Music Technology, the ability to read treble clef notation, a good musical ear, basic keyboard ability and Grade 4 or above in GCSE Music preferred)

What career could I have?

- Musician
- Music Teacher/Therapist
- Sound Technician; broadcasting/film/radio
- Arts Administrator
- Event Manager
- Theatre Stage Manager

Who can I contact for more information?

Mr J Hampson

Subject Lead

jhampson@fromecollege.org.uk

Photography

GCE A Level / AQA

Year 12 content

You will explore a range of photographic techniques and processes to develop a portfolio of work, using a broad starting point. Use and control of good lighting and composition is a key focus of this unit – and throughout A Level photography. Students respond to a number of photographers and other influences to form their own ideas to develop this portfolio of work and to conclude the project through personal outcomes. Work produced in Year 12 will be used to support your overall A Level outcome.

At the beginning of February, you will select a starting point from the questions available and complete a portfolio of work by the end of April including a final outcome.

Year 13 content

Coursework – Personal project (60%) Students are expected to generate their own ideas and themes to create a highly personal project. The work also focuses on preparing portfolios to cater for the needs of students applying for higher education or professionally. The work is accompanied by a 1,500 – 3,000-word essay to justify the project.

Exam (40%) A 15-hr controlled test in which students create and complete a final outcome at the end of the exam period.

Attributes and Behaviours of a Photography Student

- Working for 4/5 hours out of lessons a week. Using free periods to work in department should be a habit.
- Willingness to follow the assessment objectives and the specification.
- Constantly gather and research ideas via Pinterest, read books and articles about your subject, attend exhibitions, and shows that feed your ideas and inspiration.
- Have a clear plan of how you will use your time in and out of lesson. Plan this time and have a proactive attitude towards your work.
- Be willing to hear and seek and use feedback from others. Being reflective and willing to move ideas forward is important.
- Be resilient and mature about the importance of this work.
- Listen to the advice of your Teacher- read your feedback and take part in group critiques, being able to discuss your work whilst sharing ideas for others.
- Take creative risks and be open to try new processes and techniques.
- Be selective with your work and take pride in all you present.
- Research ideas thoroughly and respond to the ideas you investigate, not just aesthetics.
- Love your work!

What do I need?

Five GCSEs grades 9-4 (including grades 9-4 in English and Maths and grade 5 or above in Art and/or Photography).

What career could I have?

- Advertising art director
- Film/video editor
- Graphic designer
- Magazine features editor
- Medical illustrator
- Photographer
- Press photographer
- Television camera operator

Physics

GCE A Level / OCR Physics A

A Level course structure

Physics A Level is one of the most universally accepted qualifications for progression onto university. The course content covers the basis of how things work, from the constituent parts of atoms out to the extent of the universe. You will learn to apply your knowledge of the key concepts to solve problems in a range of different contexts and applications. The emphasis throughout the course is on developing knowledge, competence and confidence when working practically and problem solving. These are vital skills that any future employer or further education establishment will look for.

Year 12 content

- Development of practical skills in physics
- Physical quantities and units
- Making measurements and analysing data
- Nature of quantities
- Forces and motion
- Work, energy and power
- Materials
- Momentum
- Charge and current
- Energy, power and resistance
- Electrical circuits
- Waves

Year 13 content

- Development of practical skills in physics
- Thermal physics
- Circular motion
- Oscillations
- Gravitational fields
- Astrophysics and cosmology
- Capacitors and Electric fields
- Electromagnetism
- Nuclear and particle physics
- Medical imaging

Practical work

There are numerous opportunities to use practical experiences to link theory to reality and equip students with the essential practical skills they need and will be written up in lab books.

Assessments

There are three exams at the end of the two years for A Level, all of which are 2 hours 15 mins long. Practical skills will be tested in the exams and students will also be awarded a pass on their certificate for the Practical Endorsement if they are able to demonstrate full competency in the required practical skills to their teacher.

What do I need?

Grade 9-6 in Physics.

The mathematical content of the A Level Physics course is very demanding and therefore it is required that students take Physics in combination with A Level Mathematics.

What career could I have?

- Aerospace Engineer
- Astronomer
- Building Services Engineer
- Engineer (civil, electronics, energy etc)
- Geoscientist
- Physicist

Who can I contact for more information?

Mr P. Jones

Subject Lead

pjones@fromecollege.org.uk

Politics

A Level / Edexcel

Politics is a fascinating subject that will help you understand the world you live in. The course has three broad themes. Firstly, the Politics of Britain and America (e.g. pressure groups, elections, voting behaviour). Secondly, the government of Britain and America (e.g. the role of Presidents and Prime Ministers). Finally, you will study some key political ideologies, e.g. Socialism, Conservatism and Feminism. An interest in current affairs is crucial to succeed in this subject, for example you should be following political developments in both the UK and USA.

Year 12 Content

- Unit 1: UK Politics: Political participation and core Political ideas e.g. voter behaviour, the role of pressure groups and the three core ideologies – Conservatism, Socialism and Liberalism.
- Unit 2: UK Government and non-core Political ideas e.g. The role of the prime minister, judicial review and feminism.

Year 13 Content

- Unit 3: US Government and Politics e.g. voter behaviour, the electoral college and the role of the Supreme Court.

You will also tackle comparative questions that get you to compare British and American government and politics

How is it assessed?

Three exams at the end of Year 13

What does Politics combine well with?

Recommended combinations include History, Sociology, Criminology and English.

You can find the full specification here:
<https://tinyurl.com/pearson-politics>

What do I need?

Five GCSEs 9-4 (including at least grade 5 in English)

What career could I have?

- Journalism
- Politics
- Local or national government
- Working for a pressure group

Who can I contact for more information?

Mr R Hood

Subject Lead

rhood@fromecollege.org.uk

Product Design

GCE A Level / AQA

Year 12 content

Terms 1 and 2

- Technical principles
- 3.1.1 Materials and their applications
- 3.1.2 Performance characteristics of materials
- 3.1.3 Enhancement of materials
- 3.1.4 Forming, redistribution and addition processes

Terms 3 and 4

- 3.1.4.4 The use of adhesives and fixings
- 3.1.5 The use of finishes
- 3.1.6 Modern industrial and commercial practice
- 3.1.6.2 Efficient use of materials

Terms 5 and 6

- Start of Major Project
- 3.1.7 Digital design and manufacture
- 3.1.8 The requirements for product design and development
- 3.1.10 Protecting designs and intellectual property
- 3.1.11 Design for manufacturing, maintenance, repair and disposal

Mock exam Design and making principles Paper 2

Year 13 content

Terms 1 and 2

- 3.1.12 Feasibility studies
- 3.1.13 Enterprise and marketing in the development of products
- 3.1.14 Design communication
- Designing and making principles
- 3.2.1 Design methods and processes
- 3.2.2 Design theory
- 3.2.3 How technology and cultural changes can impact on the work of designers
- 3.2.3.4 Product life cycle
- 3.2.4 Design processes
- Terms 3 and 4
- 3.2.5 Critical analysis and evaluation
- 3.2.6 Selecting appropriate tools, equipment and processes
- 3.2.7 Accuracy in design and manufacture
- 3.2.8 Responsible design
- 3.2.9 Design for manufacture and project management
- 3.2.10 National and international standards in product design
- Completion of major project

Terms 5 and 6

Exam Revision and A Level Exams

The A Level qualification will be assessed at the end of the two years. Students will be expected to sit two written exams, a major project.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths, grade 5 in Technology or in an Art and Design subject).

What career could I have?

- Product designer
- Interior designer
- Engineer
- Design industry
- Construction industry

Who can I contact for more information?

Ms C. Byrne

Subject Lead

cbyrne@fromecollege.org.uk

Religious Studies - Philosophy and Ethics

GCE A level / AQA

Year 12 content

Section A

- Arguments for the existence of God
- Evil and suffering
- Religious experience
- Normative ethical theories
- The application of natural moral law, situation ethics and virtue ethics to issues of life after death and non-human life after death

Section B

- Sources of wisdom and authority
- God
- Self, death and afterlife
- Good conduct and key moral principles
- Expressions of religious identity

Year 13 content

Section A

- Religious language
- Miracles
- Free will and moral responsibility
- Conscience
- Bentham and Kant

Section B

- Christianity, gender, and sexuality
- Christianity and science
- Christianity and the challenge of secularisation
- Christianity, migration, and religious pluralism

Section C

- The dialogue between ethical theory and religion

A level: two three-hour written exams, each worth 50%.
The R&P team focus on academic success as well as memorable and challenging experiences such as philosophy conferences and outside speakers

What do I need?

Five GCSE grades 9-4 (including grade 9-6 in English)

What career could I have?

- Teacher
- Law: Barrister / Solicitor/ Paralegal
- Chaplain / Vicar
- Civil Service / Local Government Officer
- Journalist / Media
- Police
- Politician
- Psychotherapist/ Counsellor
- Social/ Youth Work
- Tourism

Sociology

GCE A Level / AQA

Ideally this A-level is intended for those who have already studied Sociology at GCSE and are familiar with sociological concepts.

There is an emphasis on literacy and essay- writing. This is an academic A Level with a high essay- writing component. Ideally you will be thinking of university.

Paper 1: Education with theory and methods 2 hour exam (33.3%)

- The role and function of the education system
- Differences in attainment (class, gender and ethnicity)
- Relationships and processes within schools
- Educational policy
- Researching education

Paper 2: Topics in Sociology (Families and Households). 2 hour exam (33.3%)

- Families and the relationship to society
- Changing family patterns
- Couples; the division of domestic labour
- Demography

Beliefs in Society

- Ideology, science and religion
- Social change and religious beliefs
- Religious organisations (sects, cults and denominations)
- Secularisation in the global world

Paper 3: Crime and Deviance with theory and methods. 2 hour exam (33.3%)

- Crime and social control
- Crime and social class, gender and ethnicity
- The media and crime
- Crime control; prevention and punishment

What do I need?

Level 5 at GCSE Sociology and above or level 6 at English language GCSE

What career could I have?

- Charity/Community Worker
- International Aid
- Social Services/Youth and Family Support Worker
- Civil Service Administrator/ Local Government
- Housing Manager/Officer
- Human Resources Officer
- Life Coach
- Journalist
- Police/Probation or Prison Officer

Who can I contact for more information?

Mr J Randall

Subject Lead

jrandall@fromecollege.org.uk

Spanish

GCE A Level / AQA

Year 12 content

- Terms 1 and 2: Aspects of Spanish-speaking society

We will look at the changing nature of the family; the 'cyber society'; the place of voluntary work. There will be a focus on grammar and a selection of films and songs.

- Terms 3 and 4: Artistic culture in the Spanish-speaking world

We will focus on contemporary hispanophone music; cinema and the cultural heritage of Spanish-speaking countries. Once again, there will be a focus on grammar and a selection of films and songs.

- Terms 5 and 6: Film

We will focus on studying the chosen film as part of the cultural element of the course.

Aspects of Spanish-speaking society

We will look at the positive features of a diverse society, life for the marginalised and the treatment of criminals.

For more information on these courses visit www.aqa.org.uk

Year 13 content

- Terms 1 and 2: Aspects of political life in the Spanish-speaking world

We will cover the rights of teenagers, the right to vote and political commitment; demonstrations, strikes – who holds the power? Politics, immigration, and grammar.

- Terms 3 and 4

We will focus on studying the text as part of the cultural element of the course. There will also be extra preparation for the speaking exam. During terms 1 to 4 you will also be able to research and prepare your individual project for the speaking assessment.

- Terms 5 and 6

Exam focus and topic review.

Exams

- There are three exams at A level:
- Reading and responding to a variety of texts based on the topics covered (2 hours, 30 mins - 50%)
- A written exam based on one text or one film studied, plus a translation into Spanish (2 hours - 20%)
- A speaking test of 21-23 minutes discussing one of the sub-themes, a presentation of your research project and a discussion based on this (30%).

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths and a minimum grade 6 in Spanish).

What career could I have?

- Interpreter / Translator
- Logistics or distribution manager
- Travel Agent- Tour Representative
- Working abroad in any industry
- Broadcast Journalist
- Diplomatic Service
- Teacher/ Lecturer
- English as a foreign language teacher
- International Aid

Sport and Physical Activity (TEC)

Level 3 Cambridge Technical Extended Certificate/ OCR (equivalent to one A Level)

This course provides students with applied learning to develop core specialist knowledge, skills and understanding required in the sport and physical activity sector. Students study three mandatory units and must choose optional units totalling a minimum 360 GLH (Guided learning Hours).

Mandatory units

- Unit 1 - Body systems and the effects of physical activity
- Externally assessed. 90 GLH.
- Unit 2 - Sports coaching and activity leadership
- Internally assessed. 90 GLH.
- Unit 3 - Sports organisation and development
- Externally assessed. 60 GLH. Optional units
- Unit 17 - Sports injuries and rehabilitation
- Internally assessed. 60 GLH.
- Unit 18 - Practical skills in sport and physical activities

Internally assessed. 60 GLH.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths with a minimum of a merit in Level 2 BTEC Sport).

What career could I have?

- PE Teacher
- Sports Coach
- Leisure Industry
- Personal Trainer
- Outdoor sports instructor - coasteering/climbing/ mountaineering
- Uniformed Public Services; Army, Navy
- Sports Massage
- Physiotherapist

Who can I contact for more information?

Mr M Howlett
Subject Lead
mhowlett@fromecollege.org.uk

Sport and Physical Activity (TD)

Level 3 Cambridge Technical Diploma / OCR (equivalent to two A Levels)

This course has twelve units, three of which are externally assessed. This course further develops students' skills by completing a wide range of units. Students will study units totalling a minimum of 720 guided learning hours (GLH).

Sports Coaching

- Unit 1 - Body systems and the effects of physical activity

Externally assessed.

- Unit 2 - Sports coaching and activity leadership

Internally assessed.

- Unit 3 - Sports organisation and development

Externally assessed.

- Unit 4 - Working safely in sport, exercise, health and leisure

Externally assessed.

- Unit 5 - Performance analysis in sport and exercise

Internally assessed.

- Unit 8 - Organisation of sports events

Internally assessed.

- Unit 11 - Physical activity for specific groups

Internally assessed.

- Unit 13 - Health and fitness testing for sport and exercise

Internally assessed.

- Unit 17 - Sports injuries and rehabilitation

Internally assessed.

- Unit 18 - Practical skills in sport and physical activities

Internally assessed.

- Unit 19 - Sport and exercise psychology

Internally assessed.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English and Maths with a minimum of a merit in Level 2 BTEC Sport).

What career could I have?

- PE Teacher
- Sports Coach
- Travel and Tourism
- Leisure Industry
- Personal Trainer
- Outdoor sports instructor
- Uniformed Public Services
- Sports Massage
- Physiotherapist

Who can I contact for more information?

Mr M Howlett

Subject Lead

mhowlett@fromecollege.org.uk

Textile Design

GCE A Level / AQA

Textile design is an exciting creative course which allows you the opportunity to explore materials and techniques from an art and design perspective. Outcomes can be developed with an interior or fashion focus, depending on your interests.

Year 12 Content

- Project 1: Colour

This unit is designed to allow you to experiment with surface design through a broad range of workshops. You will explore a wide range of techniques and processes such as slash work, trapping, felting, applique, fusing, dying, and printing. Using inspiration from research and combining knowledge of the learnt techniques, you will develop your ideas to produce a fashion, art installation or interior final piece.

- Project 2: Structures (Year 12 Mock)

This unit is exploring natural or man-made structures through manipulating fabrics to create a sculptural fashion piece, art installation or interior product.

Year 13 Content

- Component 1 Coursework (60%)

Personal investigation: In this unit you will be able to develop your own personal project based on a theme that you wish to explore in detail. This component will build on your knowledge and skills that you have learnt in year 12. Along with the practical project you will be required to write a 1500–3000-word essay to justify the project.

- Component 2 - Exam (40%)

In February, you will be given a range of design briefs published by the exam board. You will select one brief to work towards and then an outcome will be created in a 15-hour controlled exam.

What do I need?

Five GCSE grades 9-4 (including grades 9-4 in English & Maths, and grade 9-6 in any art subject.). Students will require a sewing machine.

What career could I have?

- Fashion designer
- Interior designer
- Textile designer
- Costume designer
- Clothing/textile technologist
- Colour technologist
- Trend forecasting and consultancy
- Visual merchandiser
- Buyer
- Fashion journalism
- Marketing

Who can I contact for more information?

Mrs C Gale
Subject Lead
cgale@fromecollege.org.uk

World of Work

BTEC Level 2 Work Skills

This programme is designed to allow students to develop their CV by gaining experience in the workplace, improve their employability skills and enhance their English and Maths qualifications.

Students will spend two days each week in College completing a Work Skills Level 2 BTEC which is largely assignment and computer based. They also attend lessons in Maths and English as relevant. Students receive support to complete a strong CV and gain interview skills.

Work placements will be two days per week, during term time, between November and May, to enable students to fully immerse themselves in the world of work. Students are expected to complete a minimum of 250 work placement hours and to gather evidence of the skills achieved, which will help you when seeking employment in the future. We have excellent links with local employers and aim to secure a placement in the area the student wishes to pursue as a career.

The students improve their Maths and English qualifications, increase personal confidence and gain workplace experience. They will also develop a portfolio of their skills which can be used to show potential employers. This puts our students in an excellent position to progress to an apprenticeship, college, or A Levels at the end of their course.

Examples of placements our students have completed are:

- Trainee Motor Vehicle Mechanic
- Animal care at a farm
- Administration Assistant at a logistics company
- Trainee Sports Coach
- Optician's receptionist
- Plumbing and Heating Engineer's Assistant
- Trainee in an architect firm
- Assistant Dog Groomer
- Customer Advisor in estate agent
- Nursery Assistant
- Health Care Worker
- Teaching Assistant
- Social Media Marketing and Administrative Support

What else will I do?

You will learn how to speak and present yourself confidently to business people, learn how to write effective application forms and how to be successful at interview. You will also undertake some additional courses in food hygiene, moving and handling, stress awareness and first aid awareness. The experience and skills you gain within your placement will be highly beneficial both on your CV and to discuss at interview, to help you in gaining employment after the course.

What do I need?

Students enrol on a one-year course to achieve a Level 2 BTEC Award in Work Skills. Students also re-sit English and Maths GCSE and functional skill.
